

My husband and I are senior citizens and he isn't in the best of health. Not having to have our phone ring at all hours of the day has been wonderful. If you were to change this plan and make it weaker for us it would be a very sad day for many seniors. Think of our rights to spend our last years in peace and not have a ringing phone at all hours. Thank you for listening and may you act responsible to the many people that are enjoying peace and quiet.
